### The 7<sup>th</sup> Leadership Seminar

Under the theme

“The women that have changed the world”

#### Some of the Great Women leaders

Mother Theresa(RIP)

Rosa Parks (RIP)

Margaret Thatcher

Indira Gandhi(RIP)

#### Seminar subthemes

1. The motivations of leading women in the world
2. Why women are disadvantaged in decision making
3. Are women better leaders?
4. Lessons from the world's greatest women leaders

#### Background

Leadership has been dominated by men and today in the world's G20 there is only one woman Head of state. This is despite the affirmative action that has propelled the women to leadership positions in both the business and non- business world.

Research has also indicated that women are more stable and fair-minded in decision making. However despite this, there is still a dearth of women in top positions. That notwithstanding, the few women leaders that took the world stage have been formidable and left a mark after them. What made these women different?

#### Objectives of the seminar

The seminar is intended to profile these women leaders so as to learn from their lives and leadership experiences.

#### Target group

The seminar is intended to benefit and inspire women in leadership positions and for men to learn to live with women leaders. Top managers, supervisors, heads of sections, politicians and those interested in leadership and governance are welcome
